WORK EXPERIENCE

Data Scientist (Data Intelligence Function)

TRATON GROUP (Sister Group of Volkswagen Group. Holding owner of SCANIA, MAN, VWCO- and NAVISTAR)

2020 – Present   *Stockholm, Sweden*

Main Tasks

o   Led and managed day-to-day operations including data analysis, project management and internal consulting assignments
o   continuous support to senior management in managing strategic operations (planning, hiring, training, stakeholder management)
o   Data science idea generation and initiation of POC and POV. Gathered and organized large and complex datasets, performed data-mining, data analysis, and performance measurements on business information systems by using analytics tools and methodologies
o   Monitored products from statistical programs for accuracy, consistency, and statistical validity, and also designed and applied statistical and mathematical methods for analytics that were implemented into daily operations.
o   Responsible for results reporting, creation of supporting documentation for the produced product and projects. Analyzing large datasets to provide strategic direction to the company, and performing quantitative analysis of product sales trends to recommend pricing decisions
o   Conducted cost and benefit analysis of new ideas, tracked customer behavior to identify trends and unmet needs, developed statistical models to forecast inventory and procurement cycles and assisted in developing internal tools for data analysis
o   Worked closely with various teams across the company to identify and solve business challenges utilizing large structured, semi-structured, and unstructured data in a distributed processing environment

Major Achievements

o   Establish "data intelligence" function which is responsible to provide support to audit and non-audit department across the holding organization and our brands
o   Hire and train 3 analyst
o   Establish function's strategy. Acquire and manage the needed tools along with supplier relation
o   Establish stakeholders relation and create project's pipeline
o   Demonstrate 3 data science POV (Proof of value)

Manager – Data scientist

KPMG

2018 – 2020   *Stockholm, Sweden*

Achievements/Tasks

o   As a data scientist at KPMG Centre Of Excellence I was primarily responsible for client facing and end-to-end customer engagement (including business development, planning and execution)
o   Projects performed include **Finance department Transformation** (Management consultant engagement); **Process Mining** (Audit and internal control engagements); **Automation** (Tax engagements), and **Business Intelligence** (a government agency).
o   Responsible for executing analytical experiments to help solve various business problems, making a true impact across various domains and industries and across various KPMG offerings, and allowing the business to have fact-based decisions
o   Help clients (internal and external) in idea generations, driving and implementing experimental POC and POV
o   Within our department, analyzed operations to develop and implement appropriate business plans with supporting action items, with specific focus on sales, marketing, operations, and human capital activities including development of job profiles, and key performance measurements.
o   Defined program/project requirements, developed tactics, and oversaw implementation activities required to successfully meet agreed-upon client business goals and objectives
o   Prepared and presented business proposals and presentations, and worked with clients to discuss project targets and expectations.

WORK EXPERIENCE

Consultant
Deloitte

2017 - 2018   *Stockholm, Sweden*

Project performed include **Project Management Business Intelligence (government agency)**. As a part of the Business Process Solution Department, I was responsible for providing financial consultancy and also assisted in developing strategic and operation goals by identifying and analyzing preliminary business needs and translating the goals into programs and activities. Mapped the requirements of the client with the functionalities of Financials, and suggested customizations as required. Worked towards finding solutions to functional issues that may come up during each phase of the project. Collaborated to provide consulting, financial advisory, and risk management to selected clients.

Financial Analyst
The Sixth Swedish National Pension Fund (AP6)

2016 - 2017   *Stockholm, Sweden*

Participated in 3 deals, and was responsible for distressed company's due diligence, deal sourcing, market research, companies and funds valuation, and investment proposal and decision materials. Provided financial and business management leadership to Business Director And Managers with accurate and timely forecasting, risk analysis and mitigation, new business strategy, cost/price strategy, and rate management and monitoring. Involved in all aspects of financial reporting, planning, and analysis.

Investment Consultant
The First Group

2007 - 2010   *Dubai, UAE*

Provided real estate investment consultancy to customers and investors. Walked clients through a company's unique wealth builder program to forecast investment growth. Assessing and qualifying the investor's financial capability. Participating in international roadshows/exhibitions. Strengthened the client relationship and grow business through effective education and presentation of investment products and services. Effectively managed client base using a consultative approach, ensuring that all clients receive the proper attention and response.
